Down to Earth Training & Assessing

About Down to Earth Training & Assessing

DTE has now been a major supplier of quality training & assessments services to the Building & Civil Construction Industry now for almost 10 years.

DOWN TO EARTH is striving to be your ONE STOP training organization, if there is ANY TRAINING you require just call us.

Down to Earth Training & Assessing is a Registered Training Organisation.

Down to Earth NOW has an office in Geraldton, contact our Rockingham office or Mark Adam on 0417980265.

Our current scope of training is to a national qualification Certificate III in **Civil Construction, Plant, Road Construction & Maintenance, Pipe laying & Trenchless Technology.**

We are currently adding approximately 70 units from the Metaliferous Training Package.

Current in-house course that we regularly run are the Worksafe accredited "Construction Safety Awareness Course" (blue card), Basic Worksite Traffic Management & Traffic Control these course can be conducted either at your site or at our well appointed training room.

Down to Earth is a Main Roads Approved Training Organisation. Courses are not rushed or crowded.

Time is taken & the best results possible are achieved. Our trainers are all very experienced in all aspects of Civil Construction work & training

All trainers hold national certification for multiple machines & we also have Final Trim Grader Specialists.

BCITF Subsidy Eligible Participants

To receive the BCITF training subsidy a participant must be:

- Currently directly employed in the Building and Construction Industry in Western Australia; or
- (if unemployed) be able to demonstrate that they were directly employed in the Building and Construction Industry in Western Australia on a full-time basis within the previous 12 months from the date of course commencement.

Machine Operator Assessments

ASSESSMENT STANDARD

Down to Earth Training & Assessing is a Registered Training Organisation (RTO) and has scope for the delivery of a range of Civil Construction courses and training options.

Plant operators will be trained and assessed to the National Occupational Health and Safety Competency for Load shifting (7019) , or to the Down to Earth competency and are aligned to national licensing specifications & National Training Package BCC03

A Down to Earth nationally-recognized operator Card will be issued to those found to be competent and their name will be entered on to the CCF training database. The operator cards are the size of a credit card, with the relevant certification and operator's photo for identification and verification.

Plant operators are trained to the nationally recognised Civil Construction training package standards.

ASSESSMENT DURATION

Experienced operators trained to the NOHSC (7019) and nationally recognized competency standard require approximately four (4) hours per assessment, depending on the participants' skills and knowledge of the equipment they are being assessed on.

Please allow time for participants to be provided with training resources (provided by DTE) prior to the date assessments (10 days recommended)

If multiple assessments are done per person then costs will vary, please request a quote.

For BCITF eligibility requirements either check with the trainer on the day, check with our office or call BCITF on 93813900
Please ensure that you have completed & returned both pages for the BCITF subsidy to apply.

Training & Assessing

Machine Operator Assessments

Small & Large Plant

Plant Operator assessments include ALL machinery used within the Civil Construction Industry, such as:

Large Machinery

Front-end Loaders—Wheeled, Tracked & Interchangeable tools.
Skid-steer Loader, Backhoe, Dozer, Excavator, Roller, Watercart
Compactor, Scraper & much more.

Small Machinery

Small Plant & Equipment machinery courses can be designed around your requirements.

Chainsaw, Cut Quick Concrete saws, Whacker Packers, Plate compactors, Generators, Concrete Mixers & many many more.

Please call to request your course & verify with us your needs.

BCITF Subsidy

Eligible Participants

To receive the BCITF training subsidy a participant must be:

- Currently directly employed in the Building and Construction Industry in Western Australia; or
- (if unemployed) be able to demonstrate that they were directly employed in the Building and Construction Industry in Western Australia on a full-time basis within the previous 12 months from the date of course commencement.
